The History of the Olympic Games 25

The Olympics is one of the most famous sporting events, but what many people don't know is that the Olympics is one of our oldest traditions as human beings. Evidence shows that the Olympics were celebrated in 776 BC, when somebody from the city of Elis won an almost 200-metres foot race. This was the stadion race, which was the only Olympic sporting event of the first twelve ancient Olympic Games. The Olympic Games lost popularity, and it is believed that they ended in the year 393 when the emperor Theodosius I demanded all practices similar to the Games be eliminated. There were some attempts to revive the Olympics, but it wasn't until 1894 when Pierre de Coubertin founded the International Olympic Committee, that there was any serious progress. Two years later, the first modern Olympic Games were held in Athens, Greece.

After this, the olympics became an international success. In 1924, the first edition of the Winter Olympic Games took place in Paris, featuring sporting events that could not be held in the summer. Some decades later, the first edition of the Paralympics took place in Rome in 1960, featuring athletes with disabilities. Probably the most famous symbol of the Olympics is the Olympic Flame. This tradition comes from the 1936 games, and it involves thousands of athletes running from Greece to the place where the Olympics will take place to light the Olympic torch.
